POSITION DESCRIPTION

POSITION TITLE: ELECTRICAL RPEQ/LEAD ENGINEER

REPORTS TO:

ELECTRICAL & IC ENGINEERING TEAM LEAD

Or such other person/s as the company may nominate from time to time.

POSITION SUMMARY

Your role is essential to Waterline's purpose of partnering with Australian industry to provide safe and sustainable resources to the world. You will use your technical engineering understanding and practical experience to make our Industry Partners more efficient, safe, and productive. You will work across the full asset lifecycle including studies, design, project execution, commissioning, operations, and decommissioning. Using your technical and practical knowledge, you will strive to ensure quality and purpose in all deliverables.

In your role you will engage directly with our clients to solve the technical challenges that occur within their operations across a variety of aspects of electrical engineering. You will work with them and the rest of the Waterline team to define the project scope, develop the project budget, make decisions on how the project will be delivered technically including informing and getting buy-in from the client on your approach. You will then deliver the project with the support of intermediate and junior members of the team, to delight the client.

As 'Operational Engineers of Choice', we are required to, and our clients may expect us to travel to their sites to support, interact and engage with their personnel to deliver on their requirements. This may include but is not limited to completing audits, providing operational support, and commissioning support. This means fitting in and accommodating our clients' work patterns, Health and Safety requirements and operational needs to ensure we can support their 24/7 operations.

POSITION DETAILS	Description of duties and responsibilities	
ENGINEERING	 Identify when technical analysis methods and engineering software can be applied to solve our clients' problems 	
	 Develop, review, update and modify electrical designs including calculations, reports, and drawings 	
	 Ensure designs are compliant with Australian legislation, standards, client specifications, relevant international standards, and industry norms 	
	 Engineering services are to be completed to allocated budgets and timeframes, which is how you will help Waterline deliver valuable commercial outcomes 	
	 Project-related activities, including cost estimation, scope development, schedule development, and liaison with engineers and project managers to help manage clients during project delivery 	
	 Involvement in small project-based teams of engineering professionals to ensure delivery of effective and commercially valuable structural engineering solutions, to deliver 'Value Driven Projects' 	

	Effectively communicate your design decisions to Waterline internal stakeholders and clients			
	 Assist in the development of inhouse engineering design aids / tools, standards, specifications and design criteria 			
	 Regular site visits to facilitate client's requirements and support WL Engineering compliance, audits, delivery, and commissioning (FIFO rosters and extended periods on site) 			
	 Provide advice and support across the business relevant to your professional area 			
BUSINESS	Be a champion of the Waterline Purpose, Values and Brand			
DEVELOPMENT	 Attend client meetings and take briefs to develop project scopes that meet client needs 			
	 Maintain relationships with existing clients by delivering excellent service 			
	 Meet with clients to determine project scope requirements and track project progress, to be able to realise true project benefits 			
	Maintain existing client relationships and maintain contact			
	 Regular site visits to projects as required to build relationships and deliver excellent service 			
REPORTING	 Accurate and daily individual tracking of time, billables, goals and prioritisation using company provided tools 			
	Participation in continuous improvement initiatives			
	Project closeout and post implementation review reports			
	Provide regular updates to Team Lead			
As well as any other tasks or duties for which you may have the skill, knowledge and / or training that is required of you, from time to time.
